

Augusto, Luis M. (2020).

Logical consequences. Theory and applications: An introduction.

2nd ed.

London: College Publications.

Addenda & Errata

(additions in blue; corrections in red; notes in green)

p. 13, **1.1.1.2.** The *complement of A*, denoted by \overline{A} or A^c ...

p. 70, near the bottom: $\Gamma \Vdash \{\phi\}$ and $\Delta \cup \{\phi\} \Vdash \{\psi\}$ are actually *generalizations* of $\Gamma \Vdash \phi$ and $\Delta \cup \{\phi\} \Vdash \psi$. (See 2.5.7.)
